

SURGE SUPPRESSION INCORPORATED

PRESS RELEASE

5 JANUARY 2010

A NEW DECADE BRINGS NEW ACHIEVEMENTS

Surge Suppression Incorporated (SSI) is pleased to announce continued progress in its laboratory certifications and standards compliance.

In 2009, Surge Suppression Incorporated's Brooksville Test Laboratory achieved certification to the Canadian Standards Association SMTC Program. By demonstrating compliance with applicable portions of ISO 17025 and by demonstrating proficiency of equipment and personnel, Surge Suppression Incorporated has been awarded certification by CSA to test to ANSI/UL 1449-2006.

As of December 31, 2009, Surge Suppression Incorporated's Brooksville Facility has been certified and registered as operating its quality system in accordance with ISO 9001:2008, the international standard for Quality Management Systems.

These achievements represent Surge Suppression Incorporated's continued commitment to the standards development and implementation processes which ensure superior product and customer service.
